LIVINGSTON'S
True Blue Seeds

Improved Netted Gem Melon (Rose Strain).

A. W. LIVINGSTON'S SONS

SEED MERCHANTS AND GROWERS.

COLUMBUS, OHIO.

Livingston's New Tomato,

"HONOR BRIGHT,"

Livingston's Latest Addition to the List of Tomatoes.

AND LIKE ALL OTHERS WILL TAKE A LEADING PLACE.

A Peculiar Bright Red Variety, which first appeared in the form of a single "sport" plant in a large field of Livingston's Stone Tomato in 1894.

ITS CHIEF PECULIARITIES

Are its solidity, changes of color the fruit undergoes during development, long-keeping qualities after being picked, and its light green foliage.

It Differs from Every Other Tomato.

THE VINES are vigorous and bear profusely from early to late in the season, and are of a most beautiful light green color.

The Color of the Fruit, When Fully Ripe, is a Rich, Bright Red, but before reaching this stage it undergoes several interesting changes. First it is Light Green, then an attractive Waxy White, then Lemon, changing to red. One of the most attractive and handsomest varieties grown, and well adapted for home use and market, and on account of its solidity and long-keeping qualities, it is especially recommended for shipping. It can be shipped in barrels, like apples, if picked in the early stage of ripening, and will keep from one to four weeks if stored in a cool place. The skin seems to be crack proof, as, the past season, we had two crops, one on rich, highly manured upland, the other on rich river bottom land, and not a single tomato was found with a skin crack, even after the exceedingly heavy rains during the harvest

THE CLUSTERS bear three to five large, symmetrical fruits on hard, woody stems, the fruit ripening very evenly from the blossom end to the stem.

ITS TABLE QUALITIES are excellent; the flesh, when fully ripe, being tender and melting, not hard as one might conclude from the solidity of the uncut fruit.

Those who grow it will find it a valuable acquisition, and will be surprised at its distinctness from all other known sorts.

Sold this Season in Packets only.

PRICE—(Postpaid,) Packet, of 50 Seeds, 15c ; 2 Packets, for 25c.; 10 for $1.00; 100 for $7.00.

. . TO DEALERS . .

COLUMBUS, OHIO, January, 1897.

The quotations in this list are intended for **Dealers On'y.** We expect to bill at prices given as far as possible, but should any of our stocks run short we reserve the right to decline orders or advance prices without notice. **We do not put out Vegetable Seeds on Commission.**

At the prices quoted, customers must pay cost of forwarding. When desired we will send by mail, but when this is done postage will be added to invoice at the rate of 8c. per pound, or 15c. per quart. Half pounds will be supplied at pound rates; half bushels at bushel rates.

See our Retail Catalogue of True Blue Seeds for prices of all varieties by packet, on which we allow Dealers a discount of 50 per cent., except on such packets as are quoted in this list.

TERMS—All general bills of Garden Seeds are payable June 1, 1897, without reference to date of purchase; or a discount of one per cent. a month will be allowed on all payments made before June 1. Unknown correspondents desiring credit must give satisfactory reference.

Shipping directions should accompany each order, and will be carefully observed. In absence of same, however, we will use our best judgment as to route.

DISCOUNTS TO THE TRADE.

Small orders for seeds in packets, etc., which cannot be billed at the low bulk prices given in this Trade List will be invoiced at following discounts from Retail prices:

ALL SEEDS IN PACKETS, excepting those herein quoted, at 50 per cent. discount. 500 packets or more at 60 per cent. discount.
Seeds by ounce, pint, or quart, 33⅓ per cent. discount.
Potatoes by the pound, or Potato Eyes, 40 per cent. discount.
Plants in Collections, 10 per cent. discount.
Books on Garden Topics, 25 per cent. discount.

At the above liberal rates of discount the goods must travel at purchaser's expense, and if by mail, postage will be added to the invoice

If you have not already received a copy of our Retail Catalogue for 1897, please drop us a card and it will be sent quickly.

SPECIAL NOTICE.

We do not supply "cheap seeds," and therefore do not try to compete in price with those who handle them. We furnish the Trade exactly the same quality of seeds that we send to our best Market Gardeners. They are grown either by ourselves or subject to our inspection; hence we feel no hesitancy in saying that they are the purest and best to be found. At the same time, however, it must be distinctly understood, since the success of a crop is dependent upon so many contingencies, as condition of soil, mode of planting, climate, etc., that we cannot warrant our Seeds or hold ourselves responsible for any loss or damage arising from any failure thereof.

Address all orders and inquiries,

A. W. LIVINGSTON'S SONS,
Seed Growers, Merchants and Importers,
COLUMBUS, OHIO.

LIVINGSTON'S
Celebrated Tomato Seeds

FOR.....

MERCHANTS.

IN SEALED PACKAGES ONLY.

FOR the protection of the honest merchant and the grower who desires only true stock of our Tomatoes, we have for several years followed the plan of supplying **Our Celebrated Varieties of Tomato Seeds** in **Sealed** packages **Only**; and hence every package of the **Livingston** varieties of Tomatoes grown at headquarters will be sent out under our **TRUE BLUE SEAL.**

Twenty-four years ago we originated our **Paragon,** which was the first perfectly smooth, **red** variety known. Five years later we introduced the **Acme,** the first perfectly smooth, **purple** sort known. Since the advent of these sorts we have brought out consecutively the **Perfection. Golden Queen. Favorite. Beauty, Potato Leaf, New Stone. Royal Red. Aristocrat. and New Buckeye State.** As originators and introducers of these sorts we use the most assiduous care in growing the Seeds, and, although these same varieties are extensively advertised by other dealers, yet we do not hesitate to claim **superiority for our headquarters strains.**

We annually supply a great many merchants in all parts of the United States with our Tomato Seeds put up in packages for retailing, and it is a uniformly satisfactory and successful method, in as much as it affords a dealer's patrons positive evidence that he is selling the genuine article.

To those who have never handled our Seeds, we therefore respectfully suggest the propriety of trying our plan.

PRICES.

For putting up in 1 oz., ¼ lb., and pound packages, we make no extra charge above prices quoted by pound in this list.

Packets for retailing at 5 and 10 cents are supplied to dealers at half price.
